Tobore Igbigbi is a proactive and detail-oriented project scheduler and planner with over nine years of experience in developing, maintaining, and optimizing comprehensive project schedules for large-scale infrastructure, construction, energy, utility, and heavy civil projects. Proficient in Oracle Primavera P6 and Microsoft Project, he excels in Critical Path Method (CPM) scheduling, Time Impact Analysis (TIA), Earned Value Management (EVM), resource and cost loading, risk mitigation, change management, forensic schedule analysis, subcontractor coordination, and data visualization with Power BI and Tableau. Certified PMP, Tobore is recognized for cross-functional collaboration, stakeholder alignment, regulatory compliance, and delivering on-time, within-budget projects by identifying delays early, negotiating extensions, and implementing recovery strategies that enhance efficiency and reduce costs.

Currently a Sr. Consultant at 3IC Consulting Group (2026–Present), Tobore serves as a senior scheduler, leading the coordination and management of complex client projects. He develops and maintains integrated master schedules, facilitates multidisciplinary team alignments, oversees subcontractor schedule integrations and interface milestones, conducts advanced schedule diagnostics and risk assessments, performs TIAs and forensic analyses for claims support, generates actionable KPI dashboards and variance reports, and drives strategic improvements in project controls—ensuring seamless execution, mitigated risks, optimized resources, and exceptional outcomes across infrastructure and construction initiatives.

Positions Held

- Project Scheduler at Skanska USA Inc., Houston, TX (March 2022–2026)
- Project Scheduler at Schneider Electric, Cleveland, OH (September 2019–March 2022)
- Project Coordinator/Scheduler at Melcurt Limited, Lagos (January 2017–September 2019)

His approach emphasizes quality assurance (including DCMA 14-point checks), AACEI standards, contemporaneous delay documentation, and data-driven decision-making to support dispute resolution and project success from baseline through closeout. Tobore holds a Master of Science in Information Systems (Project Management concentration) from Central Michigan University (2021), a Bachelor of Engineering in Chemical Engineering from University of Port Harcourt (2015), and certifications including PMP, PMI-ACP, PSM I/II, Oracle Primavera P6 Professional, SAP Material Management, and OSHA.

Relevant Project Experience

- 3IC Consulting Group – Infrastructure, Construction, and Energy Projects (Ongoing; senior scheduling leadership, project coordination, risk mitigation, client deliverables; various locations)
- Skanska USA Inc. – Critical Infrastructure Projects (\$200M–\$750M; baseline development, TIA negotiations, EVM, subcontractor integration; Houston, TX)
- Skanska USA Inc. – Major Infrastructure (Subsurface Impacts; forensic analysis, 120-day extensions, \$8M delay damages)
- Schneider Electric – Bridge, Highway, and Tunnel Projects (\$150M–\$800M; baseline reviews, weather TIAs, Monte Carlo risk, change impacts; Cleveland, OH area)
- Melcurt Limited – Multi-Million Dollar Construction Initiatives (scheduling, budgeting, forecasting; Lagos)
