Wayne Kirchstein brings over 19 years of progressive experience in construction project management, scheduling, project controls, change management, and preconstruction services. His career has focused on complex, high-value projects including major airport terminal renovations, historic building rehabilitations, municipal recreational facilities, and international pursuits. He excels in leading project teams, managing multimillion-dollar budgets and schedules, coordinating stakeholders, achieving sustainability certifications, and delivering award-winning outcomes in demanding environments such as active airports and historic structures.

Wayne began his career with Manhattan Construction Company in 2006, advancing through roles from Project Engineer and Estimator to Senior Project Manager. He contributed to landmark projects including multiple phases of DFW Airport's Terminal Renovation Improvement Program (TRIP), the Dallas Cowboys Stadium, and international developments in Mexico and the US Virgin Islands. Since 2025, he has served as Senior Consultant through 3iC Consulting Group, providing expert scheduling, project controls, and consulting services on major infrastructure initiatives.

He holds a Bachelor of Science in Construction Science from Texas A&M University (2005). He is a LEED AP (legacy) and proficient in Spanish (advanced). Wayne is skilled in industry-leading tools including Primavera P6, Phoenix Scheduling, Procore, Prolog, Unifier/Skire, VISTA, and Project Site.

Relevant Project Experience

- DFW Airport FYD 2024 Remediation Project – Dallas, TX (2025-2026) – Senior Project Consultant providing scheduling and project consulting services for multi-phase runway enhancements and Terminal C American Airlines fit-out.
